RHODODENDRON

Retail Price List

January 25, 1962

We had hoped to have a printed catalog, with variety descriptions, ready for distribution this fall. But it did not work out that way. We did not have enough time to prepare the copy. Here is a partial list of our varieties. We grow many others in smaller quantity so if you are interested in something not listed, ask us about it; we may have it.

For those who would like variety descriptions the tabular material in "Rhododendrons For Your Garden", published by the American Rhododendron Society, gives the most important information, based on the observations of several experienced growers. For the convenience of those who do not have the book we have prepared a sheet giving brief descriptions of most of the varieties we list. A request on a postcard will bring it to you. Better yet send us \$6.95 and we'll mail you a copy of "Rhododendrons For Your Garden". And do you have "Getting Started with Rhododendrons and Azaleas" by J. Harold Clarke? An ideal gift for the person who wants information about propagation, culture, landscape use, and varieties and species for many purposes and climates. Price \$4.95.

Vigorous young cutting grown plants, in the smaller sizes, probably offer the best value for your Rhododendron dollar. Budded plants, on the other hand, will permit immediate enjoyment of the bloom.

Naturally we do not have every size of every variety. Order the size you would like. If we do not have the size ordered we will send a larger size or let you know what we have and request permission to change your order. Some varieties grow so vigorously we would never have budded plants in the smaller sizes; some bud so quickly we would have only the smallest sizes without buds.

All plants are shipped with a good ball of soil so may be moved quite late in the spring if given a little shade and kept well watered. However the earlier they are planted the better growth they will make.

VARIETY LIST

A. Bedford	Catawbiense album
Aladdin	Cavalcade
Alice	C. B. Van Nes
America	Chenticleer
Annie E. Endtz	Charles Bagley
Antoon van Velie	Chevalier Felix de Saxe

PRICES

Size	Most Varieties				Dwarf Varieties			
	With Flower Buds		Without Buds		With Flower Buds		Without Buds	
	Symbol	Price	Symbol	Price	Symbol	Price	Symbol	Price
6- 8 ins.	A		y	\$2.50	A	\$3.00	y	\$2.00
8-10 "	B		a		B	3.75	a	2.75
10-12 "	C	\$4.50	b	3.25	C	4.50	b	3.25
12-15 "	D	5.50	c	4.00	D	5.50	c	4.00
15-18 "	E	6.75	d	4.75			d	4.75
			e	5.50				

Indicate sizes desired by letters; May Day d, would mean a 12 to 15 inch plant without flower buds, May Day D, same size, with flower buds.

"y" plants, available in most varieties, are one year old from cuttings and were set in the lath house last June. These small plants provide an economical way to build up a collection.

RHODODENDRON SPECIES

For some years we have been growing species Rhododendrons, mostly from seed, a few from cuttings of selected forms. We actually have some 250 species in our nursery although many of these are too small, or too few to include in a retail list. Most Rhododendron fans eventually become interested in the species as charming landscape plants. If you want our species list just let us know.
